

Melamine faced chipboards

Choose what you like

Let yourself be inspired! In a production scale of melanine faced chipboards from the company Kronospan Jihlava every customer can choose from a wide range of big amount of decors with various surfaces. You can find decors imitating wood or decors in Uni – colors. Besides melanine faced chipboards we can offer you also a collection of accessories which is necessary for functional and successful use of our products. We use modern technologies and these make us strong and reliable partner. Enjoy variation of our decors and surface finishing and let yourself be inspired!

ARTECO Collection

We put great emphasis on professional approach, functionality, topicality of décors and respect for new lifestyle trends. For the year 2009 we have prepared the ART ECO collection whose name suggests the combination of art and ecology in the collection. We have invited outstanding architects and designers for the process of selection of new décors and together we have prepared new developments suitably complementing the existing collection of laminated chipboards. The new collection supports healthy lifestyle. All décors included in tis collection are exclusivly printed into chipboards with reduced formaldehyde content marked E-LE. For 2010, we are offering 28 stylish décors in this collection. The leading position of Kronospan among global manufacturers of timber-based materials predestines the company to co-creation of trends in household architecture. We believe that the ART ECO collection fit the style and requirements of very demanding customers looking for originality, quality and honest approach to craft.
